

Safety Attribute Inspection (SAI) Data Collection Tool

5.1.7 Special Navigation Areas of Operation (OP)

ELEMENT SUMMARY INFORMATION

Purpose of this Element (certificate holder's responsibility):

- To ensure continuous navigational reliability in accordance with the certificate holder's Special Navigation Areas of Operation (special use airspace) authorizations.

Objective (FAA oversight):

- To determine if the certificate holder's Special Navigation Areas of Operation process meets all applicable requirements of Title 14 of the Code of Federal Regulations (14 CFR) and FAA policies.
- To determine if the certificate holder's Special Navigation Areas of Operation process incorporates the safety attributes.
- To identify any shortfalls in the certificate holder's Special Navigation Areas of Operation process.

Specific Instructions:

- Intentionally left blank

SUPPLEMENTAL INFORMATION

Specific Regulatory Requirements (SRRs):

SAI SECTION 1 - PROCEDURES ATTRIBUTE

Objective: Procedures, instructions, and information contained in the certificate holder's manual are documented methods for accomplishing a process. Policies contained in the certificate holder's manual should establish the certificate holder's compliance posture. Policies may not be stand-alone statements but may be imbedded within procedures, instructions, or information regarding a particular regulatory requirement. The questions in this section of the data collection tool (DCT) are designed to assist the inspector in determining if the certificate holder's manual has documented or prescribed methods of accomplishing the process requirements that provide answers to the associated questions regarding who, what, when, where, and how. This section contains policy questions, procedural questions, and instructional or informational questions pertaining to various types of certificate holder requirements such as actions, prohibitions, or resources (i.e., personnel, facilities, equipment, technical data, etc.).

Tasks

	To meet this objective, the inspector must accomplish the following tasks:
1.	Review the information listed in the Supplemental Information section of this DCT.
2.	Review the duties and responsibilities for management and other personnel identified by the certificate holder who accomplish the Special Navigation Areas of Operation process.
3.	Review the certificate holder's manual to ensure that it contains policies, procedures, instructions, and information necessary for the Special Navigation Areas of Operation process.

Questions

	To meet this objective, the inspector must answer the following questions:	
1.	Does the content of the certificate holder's manual meet the specific regulatory and FAA policy requirements for a Special Navigation Areas of Operation process:	
1.1.	Does the certificate holder's manual specify that when operating a civil aircraft of U.S. registry outside of the United States, the certificate holder will:	
1.1.1	When engaged in extended overwater operations, comply with annex 2 (Rules of the Air) to the Convention on International Civil Aviation? SRRs: 91.703(a)(1)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.1.2	When engaged in extended overwater operations, comply with 14 CFR part 91, section 91.117(c)? SRRs: 91.703(a)(1)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.1.3	When engaged in extended overwater operations, comply with 14 CFR part 91, sections 91.127, 91.129, and 91.131? SRRs: 91.703(a)(1) <i>Related Design JTIs:</i> <ol style="list-style-type: none"> Check that the Certificate Holder's manual system information and instructions necessary to allow personnel concerned for each U.S. registered aircraft when over the high seas, comply 14CFR Part 91.127. <i>Sources:</i> 121.135(a)(1); 91.703(a)(1) <i>Interfaces:</i> 3.1.3(OP); 4.2.3(OP); 4.3.3(OP) Check that the Certificate Holder's manual system information and instructions necessary to allow personnel concerned for each U.S. registered aircraft when over the high seas, comply 14CFR Part 91.129. <i>Sources:</i> 121.135(a)(1); 91.703(a)(1) <i>Interfaces:</i> 3.1.3(OP); 4.2.3(OP); 4.3.3(OP) 	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable

	<p>3. Check that the Certificate Holder's manual system includes information and instructions necessary to allow personnel concerned for each U.S. registered aircraft when over the high seas, comply 14CFR Part 91.131. <i>Sources:</i> 121.135(a)(1); 91.703(a)(1) <i>Interfaces:</i> 3.1.3(OP); 4.2.3(OP); 4.3.3(OP)</p>	
1.1.4	<p>When within the airspace of a foreign country, comply with the regulations relating to flight operations within that airspace? SRRs: 91.703(a)(2)</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.1.5	<p>Comply with 14 CFR part 91 insofar as it is consistent with applicable regulations of the foreign country where the aircraft is operated or Annex 2 of the Convention on International Civil Aviation? SRRs: 91.703(a)(3)</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.1.6	<p>When operating within airspace designated as Minimum Navigation Performance Specifications (MNPS) airspace, comply with 14 CFR part 91, section 91.705? SRRs: 91.703(a)(4)</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.2.	<p>Does the certificate holder's manual specify that the certificate holder will operate a civil aircraft of U.S. registry in MNPS airspace only if the aircraft has approved navigation performance capability that complies with the requirements of 14 CFR part 91, appendix C? SRRs: 91.705(a)(1)</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
1.3.	<p>Does the certificate holder's manual specify that the certificate holder will operate a civil aircraft of U.S. registry in MNPS airspace only if the operator is authorized by the Administrator to perform such operations? SRRs: 91.705(a)(2)</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
1.4.	<p>Does the certificate holder's manual contain authorization and limitations for routes and areas of operations (domestic, flag, or supplemental)? SRRs: 119.49(a)(6); 119.49(b)(6) <i>Related Design JTIs:</i></p> <ol style="list-style-type: none"> 1. Check that the Certificate Holder's manual system contains instructions to ensure each certificate holder conducting domestic operations obtains operations specifications. (Containing authorization and limitations for routes and areas of operations). <i>Sources:</i> 119.49(a)(6); 121.135(b)(24) <i>Interfaces:</i> 3.1.3(OP); 3.1.4(OP); 3.2.1(OP) 2. Check that the Certificate Holder's manual system contains instructions to ensure each certificate holder conducting flag operations obtains operations specifications. (Containing authorization and limitations for routes and areas of operations). <i>Sources:</i> 119.49(a)(6); 121.135(b)(24) <i>Interfaces:</i> 3.1.3(OP); 3.1.4(OP); 3.2.1(OP) 3. Check that the Certificate Holder's manual system contains instructions to ensure each certificate holder conducting supplemental operations obtains operations specifications. (Containing authorization and limitations for routes and areas of operations). <i>Sources:</i> 119.49(b)(6); 121.135(b)(24) <i>Interfaces:</i> 3.1.3(OP); 3.1.13(OP); 3.2.1(OP) 	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain

1.5.	Does the certificate holder's manual contain the following for operations in MNPS airspace:	
1.5.1	En route flight procedures? SRRs: 121.135(b)(5)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.5.2	Navigation procedures? SRRs: 121.135(b)(5)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.5.3	Communication procedures? SRRs: 121.135(b)(5)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.5.4	Procedures for the dispatch, release, or continuance of flight if any item of equipment required for the particular type of operation becomes inoperative or unserviceable en route? SRRs: 121.135(b)(5) <i>Related Design JTIs:</i> 1. Check that the Certificate Holder's manual system contains instructions necessary to allow personnel concerned for the flight dispatch if any item of equipment required for the particular type of operation becomes inoperative or unserviceable. <i>Sources:</i> 121.135(b)(1); 121.135(b)(5) <i>Interfaces:</i> 3.1.3(OP); 3.2.1(OP); 3.2.3(OP) 2. Check that the Certificate Holder's manual system contains instructions necessary to allow personnel concerned for the flight release if any item of equipment required for the particular type of operation becomes inoperative or unserviceable. <i>Sources:</i> 121.135(b)(1); 121.135(b)(5) <i>Interfaces:</i> 3.1.3(OP); 3.2.1(OP); 3.2.3(OP) 3. Check that the Certificate Holder's manual system contains information and instructions necessary to allow personnel concerned for the continuance if any item of equipment required for the particular type of operation becomes inoperative or unserviceable enroute. <i>Sources:</i> 121.135(a)(1); 121.135(b)(5) <i>Interfaces:</i> 3.1.3(OP); 3.2.1(OP); 3.2.3(OP)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.5.5	For domestic or flag operations, appropriate information from the en route operations specifications, including for each approved route the types of airplanes authorized, the type of operation such as Visual Flight Rules (VFR), Instrument Flight Rules (IFR), day, night, and any other pertinent information? SRRs: 121.135(b)(6) <i>Related Design JTIs:</i> 1. Check that the Certificate Holder's manual system contains instructions on conducting domestic operations and that the manual contains appropriate information from the en route operations specifications that is appropriate for each group of personnel. <i>Sources:</i> 121.135(b)(24); 121.135(b)(6) <i>Interfaces:</i> 3.1.3(OP); 3.2.1(OP); 3.2.3(OP) 2. Check that the Certificate Holder's manual system contains instructions conducting flag operations, manual contains appropriate information	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable

	<p>from the en route operations specifications is included therein, that is appropriate for each group of personnel.</p> <p><i>Sources:</i> 121.135(b)(24); 121.135(b)(6)</p> <p><i>Interfaces:</i> 3.1.3(OP); 3.2.1(OP); 3.2.3(OP)</p>	
1.5.6	<p>For supplemental operations, appropriate information from the operations specifications, including the area of operations authorized, the types of airplanes authorized, the type of operation such as VFR, IFR, day, night, and any other pertinent information?</p> <p>SRRs: 121.135(b)(7)</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.5.7	<p>Where applicable, pilot route and airport qualification procedures?</p> <p>SRRs: 121.135(b)(21)</p> <p><i>Related Design JTIs:</i></p> <ol style="list-style-type: none"> 1. Check that the Certificate Holder's manual system contains instructions for conducting flag and/or domestic operations manual contains appropriate information for the pilots for each route procedure. <i>Sources:</i> 121.135(b)(21); 121.135(b)(24) <i>Interfaces:</i> 3.1.3(OP) 2. Check that the Certificate Holder's manual system contains instructions for conducting flag and/or domestic operations manual contains appropriate information for the pilots for each airport qualification. <i>Sources:</i> 121.135(b)(21); 121.135(b)(24) <i>Interfaces:</i> 3.1.3(OP) 	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.5.8	<p>Where applicable, dispatcher route and airport qualification procedures?</p> <p>SRRs: 121.135(b)(21)</p> <p><i>Related Design JTIs:</i></p> <ol style="list-style-type: none"> 1. Check that the Certificate Holder's manual system contains instructions for conducting flag and/or domestic operations manual contains appropriate information for the dispatcher for each airport qualification. <i>Sources:</i> 121.135(b)(21); 121.135(b)(24) <i>Interfaces:</i> 3.1.3(OP) 2. Check that the Certificate Holder's manual system contains instructions for conducting flag and/or domestic operations manual contains appropriate information for the dispatcher for each route qualification. <i>Sources:</i> 121.135(b)(21); 121.135(b)(24) <i>Interfaces:</i> 3.2.1(OP) 	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.6.	<p>Does the certificate holder's manual specify that the certificate holder will conduct operations using a Doppler Radar or Inertial Navigation System outside the 48 contiguous United States and the District of Columbia, only if such systems have been approved in accordance with 14 CFR part 121, appendix G?</p> <p>SRRs: 121.355(a)(1); 121 App..G</p> <p><i>Related Design JTIs:</i></p> <ol style="list-style-type: none"> 1. Check that the Certificate Holder has instruction to ensure that the FAA-approved airplane flight manual, or supplement thereto, must include pertinent material as required to define the normal operating procedures and applicable operating limitations associated with INS 	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable

	<p>performance (such as maximum latitude at which ground alignment capability is provided, or deviations between systems). <i>Sources:</i> 121 App..G(2)(g); 121.135(b)(24) <i>Interfaces:</i> 3.1.3(OP); 4.2.3(OP); 4.3.3(OP)</p>	
2.	<p>Check that the Certificate Holder has instruction to ensure that the FAA-approved airplane flight manual, or supplement thereto, must include pertinent material as required to define the emergency operating procedures and applicable operating limitations associated with INS performance (such as maximum latitude at which ground alignment capability is provided, or deviations between systems). <i>Sources:</i> 121 App..G(2)(g); 121.135(b)(24) <i>Interfaces:</i> 3.1.3(OP); 4.2.3(OP); 4.3.3(OP)</p>	
3.	<p>Check that the Certificate Holder's training manual for flight crewmember initial training includes duties and responsibilities as it pertains to Inertial Navigation Systems. <i>Sources:</i> 121 App..G(5)(a) <i>Interfaces:</i> 4.2.3(OP); 4.3.3(OP)</p>

Check that the Certificate Holder's manual system contains a policy to ensure each certificate holder conducting flag operations must obtain operations specifications containing authorization and limitations for routes and areas of operations. <i>Sources:</i> 119.49(a)(6); 121.135(b)(1) <i>Interfaces:</i> 3.1.3(OP); 3.1.4(OP); 3.2.1(OP) 3. Check that the Certificate Holder's manual system contains a policy to ensure each certificate holder conducting supplemental operations must obtain operations specifications containing authorization and limitations for routes and areas of operations. <i>Sources:</i> 119.49(b)(6); 121.135(b)(1) <i>Interfaces:</i> 3.1.3(OP); 3.1.13(OP); 3.2.1(OP) 4. Check that the Certificate Holder's manual contains a policy statement to ensure that they may not use any person, nor may any person serve, as pilot in command between terminals over a route or area that requires a special type of navigation qualification unless, within the preceding 12 calendar months, that person has demonstrated qualification on the applicable navigation system in a manner acceptable to the Administrator, by one of the following methods: (1) By flying over a route or area as pilot in command using the applicable special type of navigation system. (2) By flying over a route or area as pilot in command under the supervision of a check airman using the special type of navigation system. (3) By completing the training program requirements of 14CFR Part 121 Appendix G. <i>Sources:</i> 121.135(b)(1); 121.445(d)(1); 121.445(d)(2); 121.445(d)(3) <i>Interfaces:</i> 4.2.3(OP); 4.2.7(OP); 4.3.3(OP) 5. Check that the Certificate Holder's manual system contains a policy to ensure that the FAA-approved airplane flight manual, or supplement thereto, must include pertinent material as required to define the normal and emergency operating procedures and applicable operating limitations associated with INS performance (such as maximum latitude at which ground alignment capability is provided, or deviations between systems). <i>Sources:</i> 121 App..G(2)(g); 121.135(b)(1) <i>Interfaces:</i> 3.1.3(OP); 4.2.3(OP); 4.3.3(OP) 	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
3.	Does the certificate holder's manual reference the appropriate Federal Aviation Regulations listed in the Supplemental Information section of this safety attribute inspection (SAI)?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain

	SRRs: 121.135(b)(3)	
4.	Does the certificate holder's manual contain the duties and responsibilities for personnel who will accomplish the Special Navigation Areas of Operation process? SRRs: 121.135(b)(2)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
5.	Does the certificate holder's manual include instructions and information for personnel to meet the requirements of the Special Navigation Areas of Operation process? SRRs: 121.135(a)(1)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain

SAI SECTION 1 - PROCEDURES ATTRIBUTE Drop-Down Menu	
1.	No procedures, policy, instructions or information specified.
2.	Procedures or instructions and information do not identify (who, what, when, where, how).
3.	Procedures, policy or instructions and information do not comply with CFR.
4.	Procedures, policy or instructions and information do not comply with FAA policy and guidance.
5.	Procedures, policy or instructions and information do not comply with other documentation (e.g., manufacturer's data, Jeppesen's Charts, etc.).
6.	Procedures, policy or instructions and information unclear or incomplete.
7.	Documentation quality (e.g., unreadable or illegible).
8.	Procedures, policy or instructions and information inconsistent across Certificate Holder manuals (FOM - Flight Operations Manual to GMM - General Maintenance Manual, etc.).
9.	Procedures, policy or instructions and information inconsistent across media (e.g., paper, microfiche, electronic).
10.	Resource requirements incomplete (personnel, facilities, equipment, technical data).
11.	Other.

SAI SECTION 2 - CONTROLS ATTRIBUTE

Objective: Controls are checks and restraints designed into a process to ensure a desired result. The questions in this section of the DCT are designed to assist the inspector in determining if checks and restraints are designed into the process to ensure the desired result is achieved. Controls should be written into the manual system to ensure that the most important manual policies, procedures, or instructions and information will be followed.

Controls may be in the form of administrative controls, which are secondary or supplemental written procedures. Like written procedures, administrative controls also need to provide answers to questions regarding who, what, when, where, and how. Controls may also be in the form of engineered controls, such as automated features or mechanical actions or devices (i.e., safety devices, warning devices, etc.).

Tasks

To meet this objective, the inspector must accomplish the following tasks:

1. Review the control questions below.
2. Review the certificate holder's policies, procedures, instructions, and information to gain an understanding of the controls that it has documented.

Questions

	To meet this objective, the inspector must answer the following questions:	
1.	Are the following controls built into the Special Navigation Areas of Operation process:	
1.1.	Is there a control or controls in place to ensure that flight crewmembers who are assigned to operate within special navigation areas of operation are properly qualified?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
1.2.	Is there a control or controls in place to ensure that dispatchers who are assigned duties for special navigation areas of operation are properly qualified?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.3.	Is there a control or controls in place to ensure that flight followers who are assigned duties for special navigation areas of operation are properly qualified?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.4.	Is there a control or controls in place to ensure that aircraft used in special navigation areas of operation meet the requirements for those operations?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
1.5.	Is there a control or controls in place to ensure that required flight crewmember actions are accomplished before and after entering special navigation areas of operation?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
2.	Does the certificate holder have a documented method for assessing the impact of any changes made to the controls in the Special Navigation Areas of Operation process?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain

SAI SECTION 2 - CONTROLS ATTRIBUTE Drop-Down Menu	
1.	No controls specified.
2.	Documentation for the controls do not identify (who, what, when, where, how).
3.	Controls incomplete.
4.	Controls could be circumvented.
5.	Controls could be unenforceable.
6.	Resource requirements incomplete (personnel, facilities, equipment, technical data).
7.	Other.

SAI SECTION 3 - PROCESS MEASUREMENT ATTRIBUTE

Objective: Process measurements are used by the certificate holder to measure and assess its processes, to identify and correct problems or potential problems, and to make improvements to the processes. The questions in this section of the DCT are designed to assist the inspector in determining if the certificate holder measures or assesses information to identify, analyze, and document potential problems with the process. Process measurements are a certificate holder's internal evaluation or auditing of the most important policies, procedures, or instructions and information associated with an element.

To prevent the duplication of work, process measurements are most commonly addressed through a combination of auditing features contained in both the certificate holder's safety program/internal evaluation program (for operations and cabin safety-related issues) and the auditing function of the Continuous Analysis and Surveillance System (for airworthiness or maintenance/inspection-related issues). The director of safety and the quality assurance department often work together to accomplish this function for the certificate holder. This approach requires amendment of the safety program/internal evaluation program audit forms or checklists and the Continuous Analysis and Surveillance System audit forms or checklists to include the specific process measurements for each element.

Tasks

	To meet this objective, the inspector must accomplish the following tasks:
1.	Review the process measurement questions below.
2.	Review the certificate holder's policies, procedures, instructions, and information to gain an understanding of the process measurements that it has documented.

Questions

	To meet this objective, the inspector must answer the following questions:	
1.	Does the certificate holder's Special Navigation Areas of Operation process include the following process measurements:	
1.1.	Is there a process measurement or process measurements that would identify if flight crewmembers who were assigned to operate within special navigation areas of operation were not properly qualified?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
1.2.	Is there a process measurement or process measurements that would identify if dispatchers who were assigned duties for special navigation areas of operation were not properly qualified?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.3.	Is there a process measurement or process measurements that would identify if flight followers who were assigned duties for special navigation areas of operation were not properly qualified?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain <input type="checkbox"/> Not Applicable
1.4.	Is there a process measurement or process measurements that would identify if aircraft used in special navigation areas of operation did not meet the requirements for those operations?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
1.5.	Is there a process measurement or process measurements that would identify if required flight crewmember actions were not accomplished before and after entering special navigation areas of operation?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
2.	Is there a process measurement or process measurements that would reveal if the certificate holder's policy, procedures, instructions, and information contained in its manual were not followed?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
3.	Does the certificate holder document its process measurement results?	<input type="checkbox"/> Yes

		<input type="checkbox"/> No, Explain
4.	Does the certificate holder s manual provide for the use of process measurement results to improve its programs?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
5.	Does the organization that conducts the process measurements have direct access to the person with responsibility for the Special Navigation Areas of Operation process?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain

SAI SECTION 3 - PROCESS MEASUREMENT ATTRIBUTE Drop-Down Menu	
1.	No process measurements specified.
2.	Documentation for the process measurements does not identify (who, what, when, where, how).
3.	Inability to identify negative findings.
4.	No provisions for implementing corrective actions.
5.	Ineffective follow-up to determine effectiveness of corrective actions.
6.	Resources requirements (personnel, facilities, equipment, technical data).
7.	Other.

SAI SECTION 4 - INTERFACES ATTRIBUTE

Objective: Interfaces are used by the certificate holder to identify and manage the interactions between processes. The questions in this section of the DCT are designed to assist the inspector in determining whether or not interactions between the policies, procedures, or instructions and information associated with other independent processes within the certificate holder's organization are documented. Written policies, procedures, or instructions and information that are interrelated and located in different manuals within the certificate holder's manual system must be consistent and complement each other. For the interfaces to be effectively managed, it is not only important to identify what the interfaces are, but it is imperative to document the specific location of the interfaces within the certificate holder's manual system.

Tasks

	To meet this objective, the inspector must accomplish the following tasks:
1.	Review the interfaces associated with the Special Navigation Areas of Operation process that have been identified along with the individual questions in section 1, Procedures, of this DCT.
2.	Review the certificate holder's policies, procedures, instructions, and information to gain an understanding of the interfaces that it has documented.

Questions

	To meet this objective, the inspector must answer the following questions: NOTE: The design job task items (JTIs) displayed with the questions in section 1, Procedures, of this DCT identify potential interfaces (by element number) for this element.	
1.	Does the certificate holder's manual properly address the interfaces that are identified along with the questions in section 1, Procedures, of this DCT?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
2.	Does the certificate holder's manual document a method for assessing the impact of any changes to the associated interfaces within the Special Navigation Areas of Operation process?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain

SAI SECTION 4 - INTERFACES ATTRIBUTE Drop-Down Menu	
1.	No interfaces specified.
2.	The following interfaces not identified within the Certificate Holder's manual system:
3.	Interfaces listed are inaccurate.
4.	Specific location of interfaces not identified within the manual system.
5.	Other

SAI SECTION 5 - MANAGEMENT RESPONSIBILITY & AUTHORITY ATTRIBUTES

Objective: The questions in this section address the responsibility and authority of the process. They are designed to assist the inspector in determining if there is a clearly identifiable, qualified, and knowledgeable person who is responsible for the process, is answerable for the quality of the process, and has the authority to establish and modify the process. (The person with the authority may or may not be the person with the responsibility.)

Tasks

	To meet this objective, the inspector must accomplish the following tasks:
1.	Identify the person who has overall responsibility for the Special Navigation Areas of Operation process.
2.	Identify the person who has overall authority for the Special Navigation Areas of Operation process.
3.	Review the duties and responsibilities of the person(s) documented in the certificate holder's manual.
4.	Review the appropriate organizational chart.

Questions

	To meet this objective, the inspector must answer the following questions:	
1.	Does the certificate holder's manual clearly identify who is responsible for the quality of the Special Navigation Areas of Operation process?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain Name/Title:
2.	Does the certificate holder's manual clearly identify who has authority to establish and modify the policies, procedures, instructions, and information for the Special Navigation Areas of Operation process?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain Name/Title:
3.	Does the certificate holder's manual include the duties and responsibilities of those who manage the work required by the Special Navigation Areas of Operation process? SRRs: 121.135(b)(2)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
4.	Does the certificate holder's manual include instructions and information for those who manage the work required by the Special Navigation Areas of Operation process? SRRs: 121.135(a)(1)	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
5.	Does the certificate holder's manual clearly and completely document the responsibility for this position?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
6.	Does the certificate holder's manual clearly and completely document the authority for this position?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
7.	Does the certificate holder's manual clearly and completely document its qualification standards for the person having responsibility for the Special Navigation Areas of Operation process?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
8.	Does the certificate holder's manual clearly and completely document its qualification standards for the person having authority to establish and modify the certificate holder's policies, procedures, instructions, and information for the Special Navigation Areas of Operation process?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain

9.	Does the certificate holder's manual clearly and completely document the procedures for delegation of authority for the Special Navigation Areas of Operation process?	<input type="checkbox"/> Yes <input type="checkbox"/> No, Explain
----	--	--

SAI SECTION 5 - MANAGEMENT RESPONSIBILITY & AUTHORITY ATTRIBUTES Drop-Down Menu	
1.	Not documented.
2.	Documentation unclear.
3.	Documentation incomplete.
4.	Other.
